

Fact Sheet

Multi-Combination Truck Driver Training

Auto Gearbox (Restricted)

Licence upgrade in an Automatic Truck: How does this work?

When you upgrade from an existing manual gear-box qualification to a higher licence class in an automatic truck, *you retain your existing manual gear change qualification.*

Course Details

This course is for serious road professionals who need to upgrade or re-familiarise with modern day driving practises.

The Ideal Driving School Multi-Combination licence training vehicles are hand picked by Shane Mengel to represent the driving opportunities and employment requirements of the Transport Industry.

The multi-combination units are trucks and trailers that have been purchased from some of Australia's premier transport companies. Combine this with our multi-combination trainers who are industry experienced and industry respected they have "been there - done that". This gives you the best learning experience possible. Call Ideal now to see which course best suits your needs.

Basic Overview of vehicle type

B Double or Road Train: Ideal Driving School provides in-house training, assessment and licensing. No Queensland Transport testing required. Specialised training from industry experts, trainers with years of professional operator experience and knowledge as well as relevant qualifications.
